Chemetall to Highlight New Environmentally Compliant Technologies with Proven Performance Including Chemetall's Advanced Pretreatments at FABTECH 2013

New Providence, NJ – Chemetall, a leading developer, manufacturer, and supplier of state-of-the-art specialty chemical products will exhibit at FABTECH 2013 on November 17 - 21, 2013 in Chicago, IL (USA). At this show, Chemetall will showcase their environmental sound innovations in the area of focused metalworking fluids and advanced pretreatments at **booth# S 4950.**

Chemetall serves the manufacturing community with its Cut It, Clean It, Coat It, Treat It, and Control It approach to market. The company's broad range of innovative technologies include metal cutting and forming fluids, cleaning products, pretreatment chemistry, rust preventatives, paint strippers and paint booth chemistry. Markets served include automotive, aerospace, defense, medical device, energy and general industries. In addition to their product offerings, Chemetall's expert engineers and scientists provide process simulation, analytical testing, and in-field assessments.

"We are excited to return to the FABTECH show and share Chemetall's outstanding new technologies developed to improve performance, reliability and cost to meet industry requirements. Our partners appreciate the high performance of our products as well as the knowledgeable technical service that we offer," said Suresh Patel, Business Manager, General Industry. Chemetall will present their standard-setting new technologies and comprehensive advanced pretreatment line of EPP and Oxsilan. In addition, Gardobond® AP 9811, a non-phosphorous pretreatment for 3-stage spray washers compatible with mild steel equipment and typical city water, will be featured. Part of the showcase also will be Chemetall's outstanding new technologies including Tech Cool® 35048BF, a boron free microemulsion coolant with superior lubrication and emulsion stability and Tech Cool 35035, a highly versatile and cost effective coolant for active machine shops performing multiple operations.

Chemetall has been developing, manufacturing, and supplying state-of-the-art specialty chemical products since 1909. The ISO 9001 company offers a wide spectrum of products ranging from metalworking fluids and drawing & stamping compounds to cleaners, rust preventatives and surface treatment chemistries. Chemetall's integrated products, chemical management systems, process equipment, and technical service programs deliver efficient and cost effective solutions for industrial manufacturing needs. Expect more with Chemetall.

Chemetall is a world-class specialty chemical company and a global provider of chemical technologies based in Frankfurt/Main, Germany. In addition to the North America headquarters in New Providence, New Jersey, other locations in the Americas include Jackson, Michigan; LaMirada, California; Bramalea, Ontario; Jundiai, Sao Paulo, Brazil; and Queretaro, Mexico. Chemetall is a division of Rockwood Holdings Inc., a global specialty chemicals and advanced materials company traded on the New York Stock Exchange.
