

CathoGuard[®]

Get an edge on your corrosion protection!

+ Highest caliber throw power

+ Optimal flow

+ Incredible edges

Uniform coating and consistent corrosion resistance

Coat Every Crevice

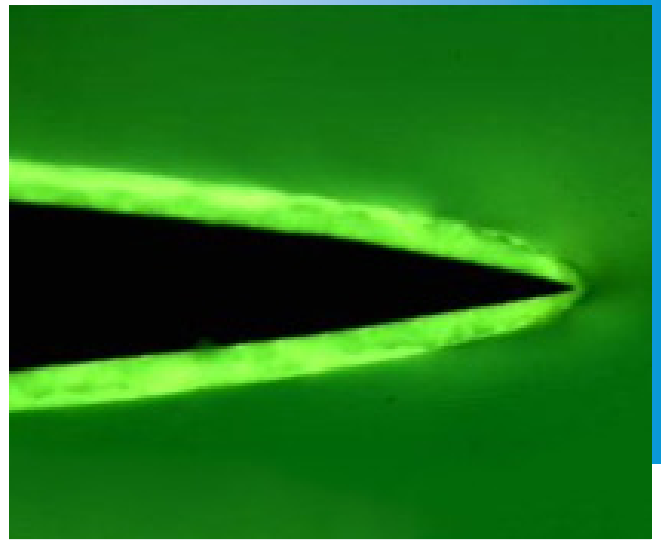

CathoGuard[®] Electrocoats are specifically formulated for efficiency. Superb throw power at desired film thickness and excellent edge protection can reduce overall material usage by 20%.

CathoGuard[®] 570

- + Tin free and lead free
- + Very high film thickness capable, 15–40+ μm
- + Superior edge protection
- + The versatility of additional film thickness further increases corrosion resistance
- + Excellent appearance

CathoGuard[®] 525

- + Lead free
- + Capable of coating 15–30 μm
- + Superior edge protection
- + Superior corrosion resistance
- + Excellent appearance

CathoGuard[®]

Standard E-Coat

CathoGuard[®] technology:
*Excellent appearance
and high edge coverage*
